

TOXICOLOGY MENTORING AND SKILLS DEVELOPMENT TRAINING PROGRAM

INVITATION TO APPLY

This is a special invitation and announcement to apply for a unique opportunity and internship in a toxicology training and mentoring program. The purpose of this NIH funded grant is to attract diverse, high achieving undergraduate students to pursue careers in biomedical research, especially toxicology. Successful applicants selected for the program will participate in online learning modules, receive expert mentoring, attend conferences, and interact with their counterparts both at Tuskegee University and Iowa State University.

Tuskegee students must meet the following criteria to apply:

- Minimum cumulative GPA of 3.0
- In the second (sophomore), third (junior), or fourth (senior) year of their undergraduate training
- Pursuing a STEM major

To apply, please submit:

- A cover letter (no more than 1 page, typed) explaining in general why you believe diversity and inclusion are important in society, careers, and/or the workplace. Also, express your interest in the potential of pursuing graduate work and a career in the field of toxicology.
- A resume or vitae with 3 references that we may contact
- Unofficial TU transcript
- Submit **electronically** with above attachments to:

whittingtonr@mytu.tuskegee.edu

Dr. Richard Whittington
Tuskegee University
Department of Biology
Tuskegee, AL 36088

For full consideration, apply by **Monday, May 1, 2017 at 11:59pm CDT**. Selected applicants may be asked to interview before the process becomes final. For more information, you may also contact Dr. Ebony Gilbreath at egilbreath@mytu.tuskegee.edu or Dr. Deloris Alexander at dalexander@mytu.tuskegee.edu.
